Testimonial to Angus Durran Fudge

For approximately the past 8 years or more Misty Hills Country Hotel Conference Center and Spa has been making use of the Angus Durran Fudge for turn-down service in our rooms.

The completely natural and organic recipe containing organic sugar used to produce this fudge speaks for itself; the packaging has been changed to recycled brown paper making this product even more green and organic reducing the food miles and carbon footprint dramatically.

Our International and local guests alike fell in love with this unique thank you gift and every so often we have guests that wants to make use of Durran Fudge as well in either personal or business capacity.

We have a long standing relationship with Angus Durran and hope to continue with this relationship well into the future.
